Use this form to restrict the payment of the death benefit amount to a beneficiary, or remove the currently effective predetermined beneficiary payout restriction on a beneficiary.

If you have more than one contract, complete a Predetermined Beneficiary Payout Option form for each contract. The option to restrict payment of the death benefit amount or remove a currently effective payout restriction is available for non-qualified and traditional or Roth IRA (not applicable with SEP IRA or SIMPLE IRA) contract types, including variable and fixed products. Frontiers II contracts are ineligible for the Predetermined Beneficiary Payout Option.

If your contract has the Flexible Lifetime Income (Joint Life) or FLI Plus (Joint Life) rider, this option is available for non-spouse primary beneficiaries on jointly owned non-qualified contracts and contingent beneficiaries on all applicable contract types.

### 3 TERMS AND CONDITIONS, SIGNATURE(S)

- (1) The payout options in Section 2 may change due to future changes in tax law. Consult with your tax advisor prior to taking any action based on this information.
- (2) The payout option selected in Section 2 for the beneficiary named will be nullified upon any of the following events:
  - (a) annuitization of the contract;
  - (b) the beneficiary named in Section 2 dies or is removed as a beneficiary under the contract;
  - (c) a distribution forced to a non-natural entity, including estates or trusts, due to the death of the beneficiary named in Section 2 or a disclaimer of assets; or
  - (d) the total amount applied to an annuity is less than the minimum amount specified under the contract.
- (3) If an owner is changed or added, this and all other predetermined beneficiary payout options in effect prior to such change will remain in effect unless subsequently changed or nullified.
- (4) If the spouse is named as the beneficiary in Section 2 and you choose to restrict the payment of the death benefit proceeds, then such restriction overrides a spouse's right to continue the underlying contract or, in the case of traditional or Roth IRA, to rollover the death benefit proceeds into the spouse's own traditional or Roth IRA or other qualified plan.
- (5) The beneficiary cannot revoke or modify the payout option(s) designated by the owner on this form.
- (6) A per capita designation will be used upon the death of any beneficiary, unless otherwise requested at the time a beneficiary is added or changed.
- (7) In order for the selected payout option to be honored, the beneficiary must be the designated recipient of benefits based on the line of succession outlined in the contract.
- (8) Refer to your contract and/or prospectus (if applicable) for additional information.

I have read and understand the instructions and the terms and conditions outlined on this form. I understand that the type of request selected in Section 2 will remain in effect for the beneficiary named in Section 2, unless changed or otherwise nullified. I further understand that the removal of a currently effective payout restriction, if applicable, does not remove the individual(s) as named beneficiary(ies) under the contract.

### INSTRUCTIONS

**1 General Information:** Provide the owner's name, daytime telephone number, and annuity contract number, if known.

**2 Beneficiary Information:** Provide the beneficiary(ies) information to which the selection made applies. The beneficiary(ies) must be an individual and must also be a named beneficiary under the contract. Predetermined payout options are not available for beneficiary(ies) who are non-natural entities.

**Type of Request:** The restriction on the payment of a beneficiary's interest in the death benefit proceeds or the removal of a currently effective predetermined beneficiary payout restriction will only apply to that beneficiary. The removal of a currently effective restriction does not remove the individual(s) as a named beneficiary(ies) under the contract.

**Payment Frequency:** Choose a payment frequency for the payout option selected. If none is selected, payments will be made annually. Pacific Life reserves the right to change the payment frequency if the first payment is less than the minimum payment amount specified under the contract. Refer to your contract for details and specified minimum.

**Payout Options:** Choose a payout option for the beneficiary. If a portion of a beneficiary's interest in the death benefit proceeds is to be paid in a lump sum and the remainder paid in the form of a payout option: (1) check the box under Section A; (2) indicate the percentage of the beneficiary's interest to be paid in a lump sum; and (3) choose one payout option under Section B, C, or D. If no percentage is indicated in Section A, 100% of the beneficiary's interest in the death benefit proceeds will be paid in a lump sum. If Option B, Annuity Payout Options, is selected, the death benefit will be annuitized either over the life expectancy of the beneficiary, over the life expectancy of the beneficiary with a guaranteed period certain, or with a guaranteed period certain. If life with period certain is selected, the minimum period certain is 5 years (7 years for Pacific Value and Pacific Value Edge), and may not exceed 30 years or the beneficiary's life expectancy. If Option C, Scheduled Payout Options, is selected, a required minimum amount must be taken each year with the first payment to be taken no later than one year from the contract owner's date of death for non-qualified contracts. If Option D, Annuity Payout Options, is selected, the death benefit will be annuitized with a guaranteed period certain. The minimum period certain is 5 years (7 years for Pacific Value and Pacific Value Edge), and may not exceed 9 years.

**3 Terms and Conditions, Signature(s):** The form must be signed and dated by the owner(s). In cases of joint ownership, both owners must sign.
