Invesco V.I. Balanced-Risk Allocation Fund

The Fund provides a complete list of its holdings four times in each fiscal year, at the quarter ends. For the second and fourth quarters, the lists appear in the Fund's semiannual and annual reports to shareholders. For the first and third quarters, the Fund files the lists with the Securities and Exchange Commission (SEC) on Form N-Q (or any successor Form). The Fund's Form N-Q (or any successor Form) filings are available on the SEC website, sec.gov. Copies of the Fund's Forms N-Q (or any successor Form) may be reviewed and copied at the SEC Public Reference Room in Washington, D.C. You can obtain information on the operation of the Public Reference Room, including information about duplicating fee charges, by calling 202 551 8090 or 800 732 0330, or by electronic request at the following email address: publicinfo@sec.gov. The SEC file numbers for the Fund are 811-07452 and 033-57340. The Fund's most recent portfolio holdings, as filed on Form N-Q (or any successor Form), have also been made available to insurance companies issuing variable annuity contracts and variable life insurance policies ("variable products") that invest in the Fund.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, from our Client Services department at 800 959 4246 or at invesco.com/proxyguidelines. The information is also available on the SEC website, sec.gov.

Information regarding how the Fund voted proxies related to its portfolio securities during the most recent 12-month period ended June 30 is available at invesco.com/proxysearch. The information is also available on the SEC website, sec.gov.

Invesco Advisers, Inc. is an investment adviser; it provides investment advisory services to individual and institutional clients and does not sell securities. Invesco Distributors, Inc. is the US distributor for Invesco Ltd.'s retail mutual funds, exchange-traded funds and institutional money market funds. Both are wholly owned, indirect subsidiaries of Invesco Ltd.

This report must be accompanied or preceded by a currently effective Fund prospectus and variable product prospectus, which contain more complete information, including sales charges and expenses. Investors should read each carefully before investing.

Fund Performance

Performance summary

Fund vs. Indexes

Cumulative total returns, 12/31/17 to 6/30/18, excluding variable product issuer charges. If variable product issuer charges were included, returns would be lower.

Series I Shares	-0.27%
Series II Shares	-0.45
MSCI World Index▼ (Broad Market Index)	0.43
Custom Invesco V.I. Balanced-Risk Allocation Index■ (Style-Specific Index)	-0.29
Lipper VUF Absolute Return Funds Classification Average◆ (Peer Group)	-3.47

Source(s): ▼FactSet Research Systems Inc.; ■Invesco, FactSet Research Systems Inc.; ◆Lipper Inc.

The **MSCI World Index℠** is an unmanaged index considered representative of stocks of developed countries. The index is computed using the net return, which withholds applicable taxes for non-resident investors.

The **Custom Invesco V.I. Balanced-Risk Allocation Index**, created by Invesco to serve as a benchmark for Invesco V.I. Balanced-Risk Allocation Fund, is comprised of the MSCI World Index (60%) and the Bloomberg Barclays U.S. Aggregate Bond Index (40%). Prior to May 2, 2011, the index was comprised of the MSCI World Index (65%), the J.P. Morgan GBI Global Index (30%) and the FTSE US 3-Month Treasury Bill Index (5%).

The **Lipper VUF Absolute Return Funds Classification Average** represents an average of all variable insurance underlying funds in the Lipper Absolute Return Funds classification.

The **Bloomberg Barclays U.S. Aggregate Bond Index** is an unmanaged index considered representative of the US investment grade, fixed-rate bond market.

The **J.P. Morgan GBI Global Index** tracks fixed-rate issuances from high-income, developed-market countries.

The **FTSE US 3-Month Treasury Bill Index** is an unmanaged index representative of three-month Treasury bills.

The Fund is not managed to track the performance of any particular index, including the index(es) described here, and consequently, the performance of the Fund may deviate significantly from the performance of the index(es).

A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects fund expenses; performance of a market index does not.

The returns shown above include the returns of Invesco Van Kampen V.I. Global Tactical Asset Allocation Fund (the first predecessor fund) for the period June 1, 2010, to May 2, 2011, the date the first predecessor fund was reorganized into the Fund, and the returns of Van Kampen Life Investment Trust Global Tactical Asset Allocation Portfolio (the second predecessor fund) for the period prior to June 1, 2010, the date the second predecessor fund was reorganized into the first predecessor fund. The second predecessor fund was advised by Van Kampen Asset Management. Returns shown above for Series I and Series II shares are blended returns of the predecessor funds and Invesco V.I. Balanced-Risk Allocation Fund. Share class returns will differ from the predecessor funds because of different expenses.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Please contact your variable product issuer or financial adviser for the most recent month-end variable product performance. Performance figures reflect Fund expenses, reinvested distributions and changes in net asset value. Investment return and principal value will fluctuate so that you may have a gain or loss when you sell shares.

The net annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 0.80% and 1.05%, respectively.[1,2,3] The total annual Fund operating expense ratio set forth in the most recent Fund prospectus as of the date of this report for Series I and Series II shares was 1.26% and 1.51%, respectively.[1] The expense ratios presented above may vary from the expense ratios presented in other sections of this report that are based on expenses incurred during the period covered by this report.

Average Annual Total Returns

As of 6/30/18

Series I Shares	
Inception (1/23/09)	8.67%
5 Years	5.62
1 Year	7.50
Series II Shares	
Inception (1/23/09)	8.39%
5 Years	5.36
1 Year	7.24

Invesco V.I. Balanced-Risk Allocation Fund, a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds), is currently offered through insurance companies issuing variable products. You cannot purchase shares of the Fund directly. Performance figures given represent the Fund and are not intended to reflect actual variable product values. They do not reflect sales charges, expenses and fees assessed in connection with a variable product. Sales charges, expenses and fees, which are determined by the variable product issuers, will vary and will lower the total return.

The most recent month-end performance at the Fund level, excluding variable product charges, is available at 800 451 4246. As mentioned above, for the most recent month-end performance including variable product charges, please contact your variable product issuer or financial adviser.

Fund performance reflects any applicable fee waivers and/or expense reimbursements. Had the adviser not waived fees and/or reimbursed expenses currently or in the past, returns would have been lower. See current prospectus for more information.

1 The expense ratio includes acquired fund fees and expenses of the underlying funds in which the Fund invests of 0.15%.

2 Total annual Fund operating expenses after any contractual fee waivers and/or expense reimbursements by the adviser in effect through at least April 30, 2019. See current prospectus for more information.

3 Total annual Fund operating expenses after any contractual fee waivers and/or expense reimbursements by the adviser in effect through at least June 30, 2020. See current prospectus for more information.

Investments Abbreviations:

EMTN – European Medium-Term Notes
LIBOR – London Interbank Offered Rate
USD – U.S. Dollar

Notes to Consolidated Schedule of Investments:

(a) Securities traded on a discount basis. The interest rates shown represent the discount rates at the time of purchase by the Fund.
(b) All or a portion of the value was pledged as collateral to cover margin requirements for open futures contracts. See Note 1L and Note 4.
(c) Security purchased or received in a transaction exempt from registration under the Securities Act of 1933, as amended (the "1933 Act"). The security may be resold pursuant to an exemption from registration under the 1933 Act, typically to qualified institutional buyers. The aggregate value of these securities at June 30, 2018, was $20,394,567, which represented 1.80% of the Fund's Net Assets.
(d) The money market fund and the Fund are affiliated by having the same investment adviser. The rate shown is the 7-day SEC standardized yield as of June 30, 2018.
(e) The Fund receives or pays payments based on any positive or negative return on the Reference Entity, respectively.
(f) Open Over-The-Counter Total Return swap agreements are collateralized by cash held with the swap Counterparties in the amount of $24,744,596.

Distributions to shareholders from net realized gains:		
Series I	–	(2,046,037)
Series II	–	(62,678,695)
Total distributions from net realized gains	–	(64,724,732)
Share transactions–net:		
Series I	(477,687)	4,606,109
Series II	(57,405,475)	43,872,788
Net increase (decrease) in net assets resulting from share transactions	(57,883,162)	48,478,897
Net increase (decrease) in net assets	(62,858,650)	49,164,294
Net assets:		
Beginning of period	1,197,416,945	1,148,252,651
End of period (includes undistributed net investment income (loss) of $9,889,906 and $6,690,148, respectively)	$1,134,558,295	$1,197,416,945

Notes to Consolidated Financial Statements

June 30, 2018
(Unaudited)

NOTE 1—Significant Accounting Policies

Invesco V.I. Balanced-Risk Allocation Fund (the "Fund") is a series portfolio of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) (the "Trust"). The Trust is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end series management investment company. Information presented in these consolidated financial statements pertains only to the Fund. Matters affecting the Fund or each class will be voted on exclusively by the shareholders of the Fund or each class. Current Securities and Exchange Commission ("SEC") guidance, however, requires participating insurance companies offering separate accounts to vote shares proportionally in accordance with the instructions of the contract owners whose investments are funded by shares of each Fund or class.

The Fund will seek to gain exposure to the commodity markets primarily through investments in the Invesco Cayman Commodity Fund IV Ltd. (the "Subsidiary"), a wholly-owned subsidiary of the Fund organized under the laws of the Cayman Islands. The Subsidiary was organized to invest in commodity-linked derivatives and other securities that may provide leveraged and non-leveraged exposure to commodities. The Fund may invest up to 25% of its total assets in the Subsidiary.

The Fund's investment objective is total return with a low to moderate correlation to traditional financial market indices.

The Fund currently offers two classes of shares, Series I and Series II, both of which are offered to insurance company separate accounts funding variable annuity contracts and variable life insurance policies ("variable products").

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*.

The following is a summary of the significant accounting policies followed by the Fund in the preparation of its consolidated financial statements.

A. Security Valuations – Securities, including restricted securities, are valued according to the following policy.

Debt obligations (including convertible securities) and unlisted equities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to specific securities, dividend rate (for unlisted equities), yield (for debt obligations), quality, type of issue, coupon rate (for debt obligations), maturity (for debt obligations), individual trading characteristics and other market data. Pricing services generally value debt obligations assuming orderly transactions of institutional round lot size, but a fund may hold or transact in the same securities in smaller, odd lot sizes. Odd lots often trade at lower prices than institutional round lots. Debt obligations are subject to interest rate and credit risks. In addition, all debt obligations involve some risk of default with respect to interest and/or principal payments.

A security listed or traded on an exchange (except convertible securities) is valued at its last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded, or lacking any sales or official closing price on a particular day, the security may be valued at the closing bid price on that day. Securities traded in the over-the-counter market are valued based on prices furnished by independent pricing services or market makers. When such securities are valued by an independent pricing service they may be considered fair valued. Futures contracts are valued at the final settlement price set by an exchange on which they are principally traded. Listed options are valued at the mean between the last bid and asked prices from the exchange on which they are principally traded. Options not listed on an exchange are valued by an independent source at the mean between the last bid and asked prices. For purposes of determining net asset value ("NAV") per share, futures and option contracts generally are valued 15 minutes after the close of the customary trading session of the New York Stock Exchange ("NYSE").

Investments in open-end and closed-end registered investment companies that do not trade on an exchange are valued at the end-of-day net asset value per share. Investments in open-end and closed-end registered investment companies that trade on an exchange are valued at the last sales price or official closing price as of the close of the customary trading session on the exchange where the security is principally traded.

Swap agreements are fair valued using an evaluated quote, if available, provided by an independent pricing service. Evaluated quotes provided by the pricing service are valued based on a model which may include end-of-day net present values, spreads, ratings, industry, company performance and returns of referenced assets. Centrally cleared swap agreements are valued at the daily settlement price determined by the relevant exchange or clearinghouse.

Foreign securities' (including foreign exchange contracts) prices are converted into U.S. dollar amounts using the applicable exchange rates as of the close of the NYSE. If market quotations are available and reliable for foreign exchange-traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that the investment adviser determines are significant and make the closing price unreliable, the Fund may fair value the security. If the event is likely to have affected the closing price of the security, the security will be valued at fair value in good faith using procedures approved by the Board of Trustees. Adjustments to closing prices to reflect fair value may also be based on a screening process of an independent pricing service to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current value as of the close of the NYSE. Foreign securities' prices meeting the approved degree of certainty that the price is not reflective of current value will be priced at the indication of fair value from the independent pricing service. Multiple factors may be considered by the independent pricing service in determining adjustments to reflect fair value and may include information relating to sector indices, American Depositary Receipts and domestic and foreign index futures. Foreign securities may have additional risks including exchange rate changes, potential for sharply devalued currencies and high inflation, political and economic upheaval, the relative lack of issuer information, relatively low market liquidity and the potential lack of strict financial and accounting controls and standards.

Securities for which market prices are not provided by any of the above methods may be valued based upon quotes furnished by independent sources. The last bid price may be used to value equity securities. The mean between the last bid and asked prices is used to value debt obligations, including corporate loans.

Securities for which market quotations are not readily available or became unreliable are valued at fair value as determined in good faith by or under the supervision of the Trust's officers following procedures approved by the Board of Trustees. Issuer specific events, market trends, bid/asked quotes of brokers and information providers and other market data may be reviewed in the course of making a good faith determination of a security's fair value.

The Fund may invest in securities that are subject to interest rate risk, meaning the risk that the prices will generally fall as interest rates rise and, conversely, the prices will generally rise as interest rates fall. Specific securities differ in their sensitivity to changes in interest rates depending on their individual characteristics. Changes in interest rates may result in increased market volatility, which may affect the value and/or liquidity of certain Fund investments.

Valuations change in response to many factors including the historical and prospective earnings of the issuer, the value of the issuer's assets, general economic conditions, interest rates, investor perceptions and market liquidity. Because of the inherent uncertainties of valuation, the values reflected in the consolidated financial statements may materially differ from the value received upon actual sale of those investments.

B. Securities Transactions and Investment Income – Securities transactions are accounted for on a trade date basis. Realized gains or losses on sales are computed on the basis of specific identification of the securities sold. Interest income (net of withholding tax, if any) is recorded on the accrual basis from settlement date. Bond premiums and discounts are amortized and/or accreted over the lives of the respective securities. Pay-in-kind interest income and non-cash dividend income received in the form of securities in-lieu of cash are recorded at the fair value of the securities received. Dividend income (net of withholding tax, if any) is recorded on the ex-dividend date.

The Fund may periodically participate in litigation related to Fund investments. As such, the Fund may receive proceeds from litigation settlements. Any proceeds received are included in the Consolidated Statement of Operations as realized gain (loss) for investments no longer held and as unrealized gain (loss) for investments still held.

Brokerage commissions and mark ups are considered transaction costs and are recorded as an increase to the cost basis of securities purchased and/or a reduction of proceeds on a sale of securities. Such transaction costs are included in the determination of net realized and unrealized gain (loss) from investment securities reported in the Consolidated Statement of Operations and the Consolidated Statement of Changes in Net Assets and the net realized and unrealized gains (losses) on securities per share in the Financial Highlights. Transaction costs are included in the calculation of the Fund's net asset value and, accordingly, they reduce the Fund's total returns. These transaction costs are not considered operating expenses and are not reflected in net investment income reported in the Consolidated Statement of Operations and the Consolidated Statement of Changes in Net Assets, or the net investment income per share and the ratios of expenses and net investment income reported in the Financial Highlights, nor are they limited by any expense limitation arrangements between the Fund and the investment adviser.

The Fund allocates income and realized and unrealized capital gains and losses to a class based on the relative net assets of each class.

C. Country Determination – For the purposes of making investment selection decisions and presentation in the Consolidated Schedule of Investments, the investment adviser may determine the country in which an issuer is located and/or credit risk exposure based on various factors. These factors include the laws of the country under which the issuer is organized, where the issuer maintains a principal office, the country in which the issuer derives 50% or more of its total revenues and the country that has the primary market for the issuer's securities, as well as other criteria. Among the other criteria that may be evaluated for making this determination are the country in which the issuer maintains 50% or more of its assets, the type of security, financial guarantees and enhancements, the nature of the collateral and the sponsor organization. Country of issuer and/or credit risk exposure has been determined to be the United States of America, unless otherwise noted.

D. Distributions – Distributions from net investment income and net realized capital gain, if any, are generally declared and paid to separate accounts of participating insurance companies annually and recorded on the ex-dividend date.

E. Federal Income Taxes – The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), necessary to qualify as a regulated investment company and to distribute substantially all of the Fund's taxable earnings to shareholders. As such, the Fund will not be subject to federal income taxes on otherwise taxable income (including net realized capital gain) that is distributed to shareholders. Therefore, no provision for federal income taxes is recorded in the consolidated financial statements.

The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained. Management has analyzed the Fund's uncertain tax positions and concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions. Management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next 12 months.

The Subsidiary is classified as a controlled foreign corporation under Subchapter N of the Internal Revenue Code. Therefore, the Fund is required to increase its taxable income by its share of the Subsidiary's income. Net investment losses of the Subsidiary cannot be deducted by the Fund in the current period nor carried forward to offset taxable income in future periods.

The Fund files tax returns in the U.S. Federal jurisdiction and certain other jurisdictions. Generally the Fund is subject to examinations by such taxing authorities for up to three years after the filing of the return for the tax period.

F. Expenses – Fees provided for under the Rule 12b-1 plan of a particular class of the Fund and which are directly attributable to that class are charged to the operations of such class. All other expenses are allocated among the classes based on relative net assets.

G. Accounting Estimates – The financial statements are prepared on a consolidated basis in conformity with accounting principles generally accepted in the United States of America ("GAAP"), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including estimates and assumptions related to taxation. Actual results could differ from those estimates by a significant amount. The accompanying financial statements reflect the financial position of the Fund and its Subsidiary and the results of operations on a consolidated basis. All inter-company accounts and transactions have been eliminated in consolidation.

In addition, the Fund monitors for material events or transactions that may occur or become known after the period-end date and before the date the consolidated financial statements are released to print.

H. Indemnifications – Under the Trust's organizational documents, each Trustee, officer, employee or other agent of the Trust, and under the Subsidiary's organizational documents, the directors and officers of the Subsidiary, are indemnified against certain liabilities that may arise out of the performance of their duties to the Fund and/or the Subsidiary, respectively. Additionally, in the normal course of business, the Fund enters into contracts, including the Fund's servicing agreements, that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification claims is considered remote.

I. Foreign Currency Translations – Foreign currency is valued at the close of the NYSE based on quotations posted by banks and major currency dealers. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at date of valuation. Purchases and sales of portfolio securities (net of foreign taxes withheld on disposition) and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for the portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. The combined results of changes in foreign exchange rates and the fluctuation of market prices on investments (net of estimated foreign tax withholding) are included with the net realized and unrealized gain or loss from investments in the Consolidated Statement of Operations. Reported net realized foreign currency gains or losses arise from (1) sales of foreign currencies, (2) currency gains or losses realized between the trade and settlement dates on securities transactions, and (3) the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

The Fund may invest in foreign securities, which may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests and are shown in the Consolidated Statement of Operations.

J. Forward Foreign Currency Contracts – The Fund may engage in foreign currency transactions either on a spot (i.e. for prompt delivery and settlement) basis, or through forward foreign currency contracts, to manage or minimize currency or exchange rate risk.

The Fund may also enter into forward foreign currency contracts for the purchase or sale of a security denominated in a foreign currency in order to "lock in" the U.S. dollar price of that security, or the Fund may also enter into forward foreign currency contracts that do not provide for physical settlement of the two currencies, but instead are settled by a single cash payment calculated as the difference between the agreed upon exchange rate and the spot rate at settlement based upon an agreed upon notional amount (non-deliverable forwards). The Fund will set aside liquid assets in an amount equal to the daily mark-to-market obligation for forward foreign currency contracts.

A forward foreign currency contract is an obligation between two parties ("Counterparties") to purchase or sell a specific currency for an agreed-upon price at a future date. The use of forward foreign currency contracts does not eliminate fluctuations in the price of the underlying securities the Fund owns or intends to acquire but establishes a rate of exchange in advance. Fluctuations in the value of these contracts are measured by the difference in the contract date and reporting date exchange rates and are recorded as unrealized appreciation (depreciation) until the contracts are closed. When the contracts are closed, realized gains (losses) are recorded. Realized and unrealized gains (losses) on the contracts are included in the Consolidated Statement of Operations. The primary risks associated with forward foreign currency contracts include failure of the Counterparty to meet the terms of the contract and the value of the foreign currency changing unfavorably. These risks may be in excess of the amounts reflected in the Consolidated Statement of Assets and Liabilities.

K. Structured Securities – The Fund may invest in structured securities. Structured securities are a type of derivative security whose value is determined by reference to changes in the value of underlying securities, currencies, interest rates, commodities, indices or other financial indicators ("reference instruments"). Most structured securities are fixed-income securities that have maturities of three years or less. Structured securities may be positively or negatively indexed (i.e., their principal value or interest rates may increase or decrease if the underlying reference instrument appreciates) and may have return characteristics similar to direct investments in the underlying reference instrument.

Structured securities may entail a greater degree of market risk than other types of debt securities because the investor bears the risk of the reference instruments. In addition to the credit risk of structured securities and the normal risks of price changes in response to changes in interest rates, the principal amount of structured notes or indexed securities may decrease as a result of changes in the value of the underlying reference instruments. Changes in the daily value of structured securities are recorded as unrealized gains (losses) in the Consolidated Statement of Operations. When the structured securities mature or are sold, the Fund recognizes a realized gain (loss) on the Consolidated Statement of Operations.

L. Futures Contracts – The Fund may enter into futures contracts to equitize the Fund's cash holdings or to manage exposure to interest rate, equity, commodity and market price movements and/or currency risks. A futures contract is an agreement between Counterparties to purchase or sell a specified underlying security, currency or commodity (or delivery of a cash settlement price, in the case of an index future) for a fixed price at a future date. The Fund currently invests only in exchange-traded futures and they are standardized as to maturity date and underlying financial instrument. Initial margin deposits required upon entering into futures contracts are satisfied by the segregation of specific securities or cash as collateral at the futures commission merchant (broker). During the period the futures contracts are open, changes in the value of the contracts are recognized as unrealized gains or losses by recalculating the value of the contracts on a daily basis. Subsequent or variation margin payments are received or made depending upon whether unrealized gains or losses are incurred. These amounts are reflected as receivables or payables on the Consolidated Statement of Assets and Liabilities. When the contracts are closed or expire, the Fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the Fund's basis in the contract. The net realized gain (loss) and the change in unrealized gain (loss) on futures contracts held during the period is included on the Consolidated Statement of Operations. The primary risks associated with futures contracts are market risk and the absence of a liquid secondary market. If the Fund were unable to liquidate a futures contract and/or enter into an offsetting closing transaction, the Fund would continue to be subject to market risk with respect to the value of the contracts and continue to be required to maintain the margin deposits on the futures contracts. Futures contracts have minimal Counterparty risk since the exchange's clearinghouse, as Counterparty to all exchange-traded futures, guarantees the futures against default. Risks may exceed amounts recognized in the Consolidated Statement of Assets and Liabilities.

M. Swap Agreements – The Fund may enter into various swap transactions, including interest rate, total return, index, currency and credit default swap contracts ("CDS") for investment purposes or to manage interest rate, currency, commodity or credit risk. Such transactions are agreements between Counterparties. These agreements may contain among other conditions, events of default and termination events, and various covenants and representations such as provisions that require the Fund to maintain a pre-determined level of net assets, and/or provide limits regarding the decline of the Fund's NAV over specific periods of time. If the Fund were to trigger such provisions and have open derivative positions at that time, the Counterparty may be able to terminate such agreement and request immediate payment in an amount equal to the net liability positions, if any.

Interest rate, total return, index, and currency swap agreements are two-party contracts entered into primarily to exchange the returns (or differentials in rates of returns) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or "swapped" between the parties are calculated with respect to a notional amount, i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate or return of an underlying asset, in a particular foreign currency, or in a "basket" of securities representing a particular index.

An interest rate swap is an agreement between Counterparties pursuant to which the parties exchange a floating rate payment for a fixed rate payment based on a specified notional amount.

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income generated and capital gains, if any. The unrealized appreciation (depreciation) on total return swaps includes dividends on the underlying securities and financing rate payable from the Counterparty. At the maturity date, a net cash flow is exchanged where the total return is equivalent to the return of the underlying reference less a financing rate, if any. As a receiver, the Fund would receive payments based on any positive total return and would owe payments in the event of a negative total return. As the payer, the Fund would owe payments on any net positive total return, and would receive payment in the event of a negative total return.

Changes in the value of swap agreements are recognized as unrealized gains (losses) in the Consolidated Statement of Operations by "marking to market" on a daily basis to reflect the value of the swap agreement at the end of each trading day. Payments received or paid at the beginning of the agreement are reflected as such on the Consolidated Statement of Assets and Liabilities and may be referred to as upfront payments. The Fund accrues for the fixed payment stream and amortizes upfront payments, if any, on swap agreements on a daily basis with the net amount, recorded as a component of realized gain (loss) on the Consolidated Statement of Operations. A liquidation payment received or made at the termination of a swap agreement is recorded as realized gain (loss) on the Consolidated Statement of Operations. The Fund segregates cash or liquid securities having a value at least equal to the amount of the potential obligation of a Fund under any swap transaction. Cash held as collateral is recorded as deposits with brokers on the Consolidated Statement of Assets and Liabilities. Entering into these agreements involves, to varying degrees, lack of liquidity and elements of credit, market, and Counterparty risk in excess of amounts recognized on the Consolidated Statement of Assets and Liabilities. Such risks involve the possibility that a swap is difficult to sell or liquidate; the Counterparty does not honor its obligations under the agreement and unfavorable interest rates and market fluctuations. It is possible that developments in the swaps market, including potential government regulation, could adversely affect the Fund's ability to terminate existing swap agreements or to realize amounts to be received under such agreements. A short position in a security poses more risk than holding the same security long. As there is no limit on how much the price of the security can increase, the Fund's exposure is unlimited.

N. Leverage Risk – Leverage exists when the Fund can lose more than it originally invests because it purchases or sells an instrument or enters into a transaction without investing an amount equal to the full economic exposure of the instrument or transaction.

O. Other Risks – The Fund will seek to gain exposure to commodity markets primarily through an investment in the Subsidiary and through investments in exchange-traded funds and commodity-linked derivatives. The Subsidiary, unlike the Fund, may invest without limitation in commodities, commodity-linked derivatives and other securities, such as exchange-traded and commodity-linked notes, that may provide leveraged and non-leveraged exposure to commodity markets. The Fund is indirectly exposed to the risks associated with the Subsidiary's investments.

P. Collateral – To the extent the Fund has designated or segregated a security as collateral and that security is subsequently sold, it is the Fund's practice to replace such collateral no later than the next business day.

NOTE 2—Advisory Fees and Other Fees Paid to Affiliates

The Trust has entered into a master investment advisory agreement with Invesco Advisers, Inc. (the "Adviser" or "Invesco"). Under the terms of the investment advisory agreement, the Fund accrues daily and pays monthly an advisory fee to the Adviser less the amount paid by the Subsidiary to the Adviser based on the annual rate of the Fund's average daily net assets as follows:

Average Daily Net Assets	Rate
First $250 million	0.95%
Next $250 million	0.925%
Next $500 million	0.90%
Next $1.5 billion	0.875%
Next $2.5 billion	0.85%
Next $2.5 billion	0.825%
Next $2.5 billion	0.80%
Over $10 billion	0.775%

For the six months ended June 30, 2018, the effective advisory fees incurred by the Fund was 0.91%.

The Subsidiary has entered into a separate contract with the Adviser whereby the Adviser provides investment advisory and other services to the Subsidiary. In consideration of these services, the Subsidiary pays an advisory fee to the Adviser based on the annual rate of the Subsidiary's average daily net assets as set forth in the table above.

Under the terms of a master sub-advisory agreement between the Adviser and each of Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. and separate sub-advisory agreements with Invesco Capital Management LLC, formerly Invesco PowerShares Capital Management LLC, and Invesco Asset Management (India) Private Limited (collectively, the "Affiliated Sub-Advisers") the Adviser, not the Fund, will pay 40% of the fees paid to the Adviser to any such Affiliated Sub-Adviser(s) that provide(s) discretionary investment management services to the Fund based on the percentage of assets allocated to such Affiliated Sub-Adviser(s).

The Adviser has contractually agreed, through at least April 30, 2019, to waive advisory fees and/or reimburse expenses of shares to the extent necessary to limit total annual fund operating expenses after fee waiver and/or expense reimbursement (including prior fiscal year-end Acquired Fund Fees and Expenses of 0.15% and excluding certain items discussed below) of Series I shares to 0.80% and Series II shares to 1.05% of average daily net assets (the "expense limits"). In determining the Adviser's obligation to waive advisory fees and/or reimburse expenses, the following expenses are not taken into account, and could cause the total annual fund operating expenses after fee waiver and/or expense reimbursement to exceed the numbers reflected above: (1) interest; (2) taxes; (3) dividend expense on short sales; (4) extraordinary or non-routine items, including litigation expenses; and (5) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement. Acquired Fund Fees and Expenses are not operating expenses of the Fund directly, but are fees and expenses, including management fees, of the investment companies in which the Fund invests. As a result, the total annual fund operating expenses after expense reimbursement may exceed the expense limits above. Unless Invesco continues the fee waiver agreement, it will terminate on April 30, 2019. During its term, the fee waiver agreement cannot be terminated or amended to increase the expense limits or reduce the advisory fee waiver without approval of the Board of Trustees. To the extent that the annualized expense ratio does not exceed the expense limits, the Adviser will retain its ability to be reimbursed for such fee waivers or reimbursements prior to the end of each fiscal year.

Further, the Adviser has contractually agreed, through at least June 30, 2020, to waive the advisory fee payable by the Fund in an amount equal to 100% of the net advisory fees the Adviser receives from the affiliated money market funds on investments by the Fund of uninvested cash in such affiliated money market funds.

For the six months ended June 30, 2018, the Adviser waived advisory fees of $2,525,117.

The Trust has entered into a master administrative services agreement with Invesco pursuant to which the Fund has agreed to pay Invesco a fee for costs incurred in providing accounting services and fund administrative services to the Fund and to reimburse Invesco for fees paid to insurance companies that have agreed to provide certain administrative services to the Fund. These administrative services provided by the insurance companies may include, among other things: maintenance of master accounts with the Fund; tracking, recording and transmitting net purchase and redemption orders for Fund shares; maintaining and preserving records related to the purchase, redemption and other account activity of variable product owners; distributing copies of Fund documents such as prospectuses, proxy materials and periodic reports, to variable product owners, and responding to inquiries from variable product owners about the Fund. Pursuant to such agreement, for the six months ended June 30, 2018, Invesco was paid $135,481 for accounting and fund administrative services and was reimbursed $867,294 for fees paid to insurance companies.

The Trust has entered into a transfer agency and service agreement with Invesco Investment Services, Inc. (“IIS”) pursuant to which the Fund has agreed to pay IIS a fee for providing transfer agency and shareholder services to the Fund and reimburse IIS for certain expenses incurred by IIS in the course of providing such services. For the six months ended June 30, 2018, expenses incurred under the agreement are shown in the Consolidated Statement of Operations as *Transfer agent fees*.

The Trust has entered into a master distribution agreement with Invesco Distributors, Inc. (“IDI”) to serve as the distributor for the Fund. The Trust has adopted a plan pursuant to Rule 12b-1 under the 1940 Act with respect to the Fund’s Series II shares (the “Plan”). The Fund, pursuant to the Plan, pays IDI compensation at the annual rate of 0.25% of the Fund’s average daily net assets of Series II shares. The fees are accrued daily and paid monthly. Of the Plan payments, up to 0.25% of the average daily net assets of the Series II shares may be paid to insurance companies who furnish continuing personal shareholder services to customers who purchase and own Series II shares of the Fund. For the six months ended June 30, 2018, expenses incurred under the Plan are detailed in the Consolidated Statement of Operations as *Distribution fees*.

Certain officers and trustees of the Trust are officers and directors of the Adviser, IIS and/or IDI.

NOTE 3—Additional Valuation Information

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, under current market conditions. GAAP establishes a hierarchy that prioritizes the inputs to valuation methods, giving the highest priority to readily available unadjusted quoted prices in an active market for identical assets (Level 1) and the lowest priority to significant unobservable inputs (Level 3), generally when market prices are not readily available or are unreliable. Based on the valuation inputs, the securities or other investments are tiered into one of three levels. Changes in valuation methods may result in transfers in or out of an investment’s assigned level:

Level 1 – Prices are determined using quoted prices in an active market for identical assets.

Level 2 – Prices are determined using other significant observable inputs. Observable inputs are inputs that other market participants may use in pricing a security. These may include quoted prices for similar securities, interest rates, prepayment speeds, credit risk, yield curves, loss severities, default rates, discount rates, volatilities and others.

Level 3 – Prices are determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity for an investment at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Fund’s own assumptions about the factors market participants would use in determining fair value of the securities or instruments and would be based on the best available information.

The following is a summary of the tiered valuation input levels, as of June 30, 2018. The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. Because of the inherent uncertainties of valuation, the values reflected in the consolidated financial statements may materially differ from the value received upon actual sale of those investments.

The Fund’s policy is to recognize transfers in and out of the valuation levels as of the end of the reporting period. During the six months ended June 30, 2018, there were no material transfers between valuation levels.

	Level 1	Level 2	Level 3	Total
Investments in Securities				
U.S. Treasury Securities	$ –	$136,269,132	$–	$ 136,269,132
Commodity Linked Securities	–	20,394,567	–	20,394,567
Money Market Funds	961,410,547	–	–	961,410,547
Total Investments in Securities	961,410,547	156,663,699	–	1,118,074,246

* Unrealized appreciation (depreciation).

NOTE 4—Derivative Investments

The Fund may enter into an International Swaps and Derivatives Association Master Agreement (“ISDA Master Agreement”) under which a fund may trade OTC derivatives. An OTC transaction entered into under an ISDA Master Agreement typically involves a collateral posting arrangement, payment netting provisions and close-out netting provisions. These netting provisions allow for reduction of credit risk through netting of contractual obligations. The enforceability of the netting provisions of the ISDA Master Agreement depends on the governing law of the ISDA Master Agreement, among other factors.

For financial reporting purposes, the Fund does not offset OTC derivative assets or liabilities that are subject to ISDA Master Agreements in the Consolidated Statement of Assets and Liabilities.

Value of Derivative Investments at Period-End

The table below summarizes the value of the Fund's derivative investments, detailed by primary risk exposure, held as of June 30, 2018:

	Value			
Derivative Assets	Commodity Risk	Equity Risk	Interest Rate Risk	Total
Unrealized appreciation on futures contracts – Exchange-Traded[a]	$ 2,755,767	$ 338,881	$ 11,791,357	$ 14,886,005
Unrealized appreciation on swap agreements – OTC	604,194	90,917	–	695,111
Total Derivative Assets	3,359,961	429,798	11,791,357	15,581,116
Derivatives not subject to master netting agreements	(2,755,767)	(338,881)	(11,791,357)	(14,886,005)
Total Derivative Assets subject to master netting agreements	$ 604,194	$ 90,917	$ –	$ 695,111

	Value			
Derivative Liabilities	Commodity Risk	Equity Risk	Interest Rate Risk	Total
Unrealized depreciation on futures contracts – Exchange-Traded[a]	$ (291,847)	$(8,141,623)	$ –	$ (8,433,470)
Unrealized depreciation on swap agreements – OTC	(8,062,192)	–	–	(8,062,192)
Total Derivative Liabilities	(8,354,039)	(8,141,623)	–	(16,495,662)
Derivatives not subject to master netting agreements	291,847	8,141,623	–	8,433,470
Total Derivative Liabilities subject to master netting agreements	$(8,062,192)	$ –	$ –	$ (8,062,192)

[a] The daily variation margin receivable at period-end is recorded in the Consolidated Statement of Assets and Liabilities.

Offsetting Assets and Liabilities

The table below reflects the Fund's exposure to Counterparties subject to either an ISDA Master Agreement or other agreement for OTC derivative transactions as of June 30, 2018.

	Financial Derivative Assets	Financial Derivative Liabilities		Collateral (Received)/Pledged		
Counterparty	Swap Agreements	Swap Agreements	Net Value of Derivatives	Non-Cash	Cash	Net Amount[b]
Fund						
Goldman Sachs International	$ 90,917	$ (989,459)	$ (898,542)	$–	$ 620,000	$(278,542)
Subtotal – Fund	90,917	(989,459)	(898,542)	–	620,000	(278,542)
Subsidiary						
Barclays Bank PLC	–	(2,845,196)	(2,845,196)	–	2,845,196	–

Subtotal – Subsidiary	$606,889	$(11,720,632)	$(11,113,743)	$–	$11,268,778	$ 155,035
Total	$697,806	$(12,710,091)	$(12,012,285)	$–	$11,888,778	$(123,507)

[b] The Fund and the Subsidiary are recognized as separate legal entities and as such are subject to separate netting arrangements with the Counterparty.

Effect of Derivative Investments for the six months ended June 30, 2018

The table below summarizes the gains (losses) on derivative investments, detailed by primary risk exposure, recognized in earnings during the period:

	Location of Gain (Loss) on Consolidated Statement of Operations			
	Commodity Risk	Equity Risk	Interest Rate Risk	Total
Realized Gain (Loss):				
Futures contracts	$ 13,636,043	$ 13,820,567	$(17,951,837)	$ 9,504,773
Swap agreements	1,067,028	213,045	(125,223)	1,154,850
Change in Net Unrealized Appreciation (Depreciation):				
Futures contracts	(3,409,012)	(14,189,755)	16,222,714	(1,376,053)
Swap agreements	(15,315,475)	(242,799)	74,084	(15,484,190)
Total	$ (4,021,416)	$ (398,942)	$ (1,780,262)	$ (6,200,620)

The table below summarizes the average notional value of futures contracts and swap agreements outstanding during the period.

	Futures Contracts	Swap Agreements
Average notional value	$1,325,756,756	$278,577,225

NOTE 5—Trustees' and Officers' Fees and Benefits

Trustees' and Officers' Fees and Benefits include amounts accrued by the Fund to pay remuneration to certain Trustees and Officers of the Fund. Trustees have the option to defer compensation payable by the Fund, and *Trustees' and Officers' Fees and Benefits* also include amounts accrued by the Fund to fund such deferred compensation amounts. Those Trustees who defer compensation have the option to select various Invesco Funds in which their deferral accounts shall be deemed to be invested. Finally, certain current Trustees were eligible to participate in a retirement plan that provided for benefits to be paid upon retirement to Trustees over a period of time based on the number of years of service. The Fund may have certain former Trustees who also participate in a retirement plan and receive benefits under such plan. *Trustees' and Officers' Fees and Benefits* include amounts accrued by the Fund to fund such retirement benefits. Obligations under the deferred compensation and retirement plans represent unsecured claims against the general assets of the Fund.

NOTE 6—Cash Balances

The Fund is permitted to temporarily carry a negative or overdrawn balance in its account with State Street Bank and Trust Company, the custodian bank. Such balances, if any at period-end, are shown in the Consolidated Statement of Assets and Liabilities under the payable caption *Amount due custodian*. To compensate the custodian bank for such overdrafts, the overdrawn Fund may either (1) leave funds as a compensating balance in the account so the custodian bank can be compensated by earning the additional interest; or (2) compensate by paying the custodian bank at a rate agreed upon by the custodian bank and Invesco, not to exceed the contractually agreed upon rate.

NOTE 7—Tax Information

The amount and character of income and gains to be distributed are determined in accordance with income tax regulations, which may differ from GAAP. Reclassifications are made to the Fund's capital accounts to reflect income and gains available for distribution (or available capital loss carryforward) under income tax regulations. The tax character of distributions paid during the year and the tax components of net assets will be reported at the Fund's fiscal year-end.

Capital loss carryforward is calculated and reported as of a specific date. Results of transactions and other activity after that date may affect the amount of capital loss carryforward actually available for the Fund to utilize. Capital losses generated in years beginning after December 22, 2010 can be carried forward for an unlimited period, whereas previous losses expire in eight tax years. Capital losses with an expiration period may not be used to offset capital gains until all net capital losses without an expiration date have been utilized. Capital loss carryforwards with no expiration date will retain their character as either short-term or long-term capital losses instead of as short-term capital losses as under prior law. The ability to utilize capital loss carryforwards in the future may be limited under the Internal Revenue Code and related regulations based on the results of future transactions.

The Fund did not have a capital loss carryforward as of December 31, 2017.

NOTE 8—Investment Transactions

The aggregate amount of investment securities (other than short-term securities, U.S. Treasury obligations and money market funds, if any) purchased and sold by the Fund during the six months ended June 30, 2018 was $24,420,000 and $25,157,287, respectively. Cost of investments, including any derivatives, on a tax basis includes the adjustments for financial reporting purposes as of the most recently completed federal income tax reporting period-end.

Unrealized Appreciation (Depreciation) of Investments on a Tax Basis

Aggregate unrealized appreciation of investments	$ 58,114,495
Aggregate unrealized (depreciation) of investments	(79,243,894)
Net unrealized appreciation (depreciation) of investments	$(21,129,399)

Cost of investments for tax purposes is $1,138,289,099.

NOTE 9—Share Information

	Summary of Share Activity			
	Six months ended June 30, 2018[a]		Year ended December 31, 2017	
	Shares	Amount	Shares	Amount
Sold:				
Series I	148,632	$ 1,673,353	353,444	$ 4,089,594
Series II	3,363,604	37,290,047	11,147,285	127,157,678
Issued as reinvestment of dividends:				
Series I	–	–	330,067	3,554,824
Series II	–	–	9,988,152	106,373,815
Reacquired:				
Series I	(190,483)	(2,151,040)	(264,404)	(3,038,309)
Series II	(8,523,558)	(94,695,522)	(16,688,062)	(189,658,705)
Net increase (decrease) in share activity	(5,201,805)	$(57,883,162)	4,866,482	$ 48,478,897

[a] There are entities that are record owners of more than 5% of the outstanding shares of the Fund and in the aggregate own 83% of the outstanding shares of the Fund. The Fund and the Fund's principal underwriter or adviser, are parties to participation agreements with these entities whereby these entities sell units of interest in separate accounts funding variable products that are invested in the Fund. The Fund, Invesco and/or Invesco affiliates may make payments to these entities, which are considered to be related to the Fund, for providing services to the Fund, Invesco` and/or Invesco affiliates including but not limited to services such as, securities brokerage, third party record keeping and account servicing and administrative services. The Fund has no knowledge as to whether all or any portion of the shares owned of record by these entities are also owned beneficially.

NOTE 10—Financial Highlights

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

	Net asset value, beginning of period	Net investment income (loss)[a]	Net gains (losses) on securities (both realized and unrealized)	Total from investment operations	Dividends from net investment income	Distributions from net realized gains	Total distributions	Net asset value, end of period	Total return[b]	Net assets, end of period (000's omitted)	Ratio of expenses to average net assets with fee waivers and/or expenses absorbed	Ratio of expenses to average net assets without fee waivers and/or expenses absorbed	Ratio of net investment income (loss) to average net assets	Portfolio turnover[c]
Series I														
Six months ended 06/30/18	$11.31	$ 0.04	$(0.07)	$(0.03)	$ –	$ –	$ –	$11.28	(0.27)%	$ 38,751	0.66%[d][e]	1.10%[d]	0.80%[d]	102%
Year ended 12/31/17	11.35	0.01	1.08	1.09	(0.48)	(0.65)	(1.13)	11.31	10.06	39,340	0.68[e]	1.11	0.10	52

[a] Calculated using average shares outstanding.
[b] Includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. Total returns are not annualized for periods less than one year, if applicable and do not reflect charges assessed in connection with a variable product, which if included would reduce total returns.
[c] Portfolio turnover is calculated at the fund level and is not annualized for periods less than one year, if applicable.
[d] Ratios are annualized and based on average daily net assets (000's omitted) of $38,993 and $1,127,122 for Series I and Series II shares, respectively.
[e] In addition to the fees and expenses which the Fund bears directly; the Fund indirectly bears a pro rata share of the fees and expenses of the underlying funds in which the Fund invests. Because the underlying funds have varied expenses and fee levels and the Fund may own different proportions at different times, the amount of fees and expenses incurred indirectly by the Fund will vary. Estimated underlying fund expenses are not expenses that are incurred directly by your Fund. They are expenses that are incurred directly by the underlying funds and are deducted from the value of the funds your Fund invests in. The effect of the estimated underlying fund expenses that you bear indirectly is included in your Fund's total return. Estimated acquired fund fees from underlying funds were 0.15%, 0.15%, 0.12% and 0.09% for the six months ended June 30, 2018 and the years ended December 31, 2017, 2016 and 2014, respectively.

Calculating your ongoing Fund expenses

Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and/or service fees (12b-1); and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with ongoing costs of investing in other mutual funds. The example is based on an investment of $1,000 invested at the beginning of the period and held for the entire period January 1, 2018 through June 30, 2018.

The actual and hypothetical expenses in the examples below do not represent the effect of any fees or other expenses assessed in connection with a variable product; if they did, the expenses shown would be higher while the ending account values shown would be lower.

Actual expenses

The table below provides information about actual account values and actual expenses. You may use the information in this table, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by $1,000 (for example, an $8,600 account value divided by $1,000 = 8.6), then multiply the result by the number in the table under the heading entitled "Actual Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The table below also provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return.

The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the hypothetical information is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds.

		ACTUAL		HYPOTHETICAL (5% annual return before expenses)		
Class	Beginning Account Value (01/01/18)	Ending Account Value (06/30/18)[1]	Expenses Paid During Period[2]	Ending Account Value (06/30/18)	Expenses Paid During Period[2]	Annualized Expense Ratio
Series I	$1,000.00	$997.30	$3.27	$1,021.52	$3.31	0.66%
Series II	1,000.00	995.50	4.50	1,020.28	4.56	0.91

1 The actual ending account value is based on the actual total return of the Fund for the period January 1, 2018 through June 30, 2018, after actual expenses and will differ from the hypothetical ending account value which is based on the Fund's expense ratio and a hypothetical annual return of 5% before expenses.

2 Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by 181/365 to reflect the most recent fiscal half year.

Approval of Investment Advisory and Sub-Advisory Contracts

At meetings held on June 5-6, 2018, the Board of Trustees (the Board or the Trustees) of AIM Variable Insurance Funds (Invesco Variable Insurance Funds) as a whole, and the independent Trustees, who comprise over 75% of the Board, voting separately, approved the continuance of the Invesco V.I. Balanced-Risk Allocation Fund's (the Fund) Master Investment Advisory Agreement with Invesco Advisers, Inc. (Invesco Advisers and the investment advisory agreement) and the Master Intergroup Sub-Advisory Contract for Mutual Funds with Invesco Asset Management Deutschland GmbH, Invesco Asset Management Limited, Invesco Asset Management (Japan) Limited, Invesco Hong Kong Limited, Invesco Senior Secured Management, Inc. and Invesco Canada Ltd. and separate Sub-Advisory Contracts with Invesco Capital Management LLC and Invesco Asset Management (India) Private Limited (collectively, the Affiliated Sub-Advisers and the sub-advisory contracts) for another year, effective July 1, 2018. After evaluating the factors discussed below, among others, the Board approved the renewal of the Fund's investment advisory agreement and the sub-advisory contracts and determined that the compensation payable by the Fund to Invesco Advisers and by Invesco Advisers to the Affiliated Sub-Advisers is fair and reasonable.

The Board's Evaluation Process

The Board's Investments Committee has established three Sub-Committees, which meet throughout the year to review the performance of funds advised by Invesco Advisers (the Invesco Funds). Over the course of each year, the Sub-Committees meet with portfolio managers for their assigned Invesco Funds and other members of management to review detailed information about investment performance and portfolio attributes of these funds. The Board took into account evaluations and reports that it received from the Investments Committee and Sub-Committees, as well as the information provided to such committees and the Board throughout the year, in considering whether to approve each Invesco Fund's investment advisory agreement and sub-advisory contracts.

As part of the contract renewal process, the Board reviews and considers information provided in response to detailed requests for information submitted to management by the independent Trustees with assistance from legal counsel to the independent Trustees. The Board receives comparative investment performance and fee data regarding the Invesco Funds prepared by Invesco Advisers and Broadridge Financial Solutions, Inc. (Broadridge), an independent mutual fund data provider. The Board also receives an independent written evaluation from the Senior Officer, an officer of the Invesco Funds who reports directly to the independent Trustees. The Senior Officer's evaluation is prepared as part of his responsibility to manage the process by which the Invesco Funds' proposed management fees are negotiated during the annual contract renewal process to ensure they are negotiated in a manner that is at arms' length and reasonable. In addition to meetings with Invesco Advisers and fund counsel throughout the year, the independent Trustees also discuss the continuance of the investment advisory agreement and sub-advisory contracts in separate sessions with the Senior Officer and with independent legal counsel.

The discussion below is a summary of the Senior Officer's independent written evaluation with respect to the Fund's investment advisory agreement as well as a discussion of the material factors and related conclusions that formed the basis for the Board's approval of the Fund's investment advisory agreement and sub-advisory contracts. The Trustees' review and conclusions are based on the comprehensive consideration of all information presented to them during the course of the year and in prior years and are not the result of any single determinative factor. Moreover, one Trustee may have weighed a particular piece of information or factor differently than another Trustee. This information is current as of June 6, 2018.

Factors and Conclusions and Summary of Independent Written Fee Evaluation

A. Nature, Extent and Quality of Services Provided by Invesco Advisers and the Affiliated Sub-Advisers

The Board reviewed the nature, extent and quality of the advisory services provided to the Fund by Invesco Advisers under the Fund's investment advisory agreement, and the credentials and experience of the officers and employees of Invesco Advisers who provide these services, including the Fund's portfolio manager(s). The Board's review included consideration of Invesco Advisers' investment process oversight and structure, credit analysis and investment risk management. The Board also considered non-advisory services that Invesco Advisers and its affiliates provide to the Invesco Funds such as various back office support functions, third party oversight, internal audit, valuation, portfolio trading and legal and compliance. The Board also reviewed and considered the benefits to shareholders of investing in a fund that is part of the Invesco family of funds under the umbrella of Invesco Ltd., Invesco Advisers' parent company, and noted Invesco Ltd.'s depth and experience in conducting an investment management business, as well as its commitment of financial and other resources to such business. The Board concluded that the nature, extent and quality of the services provided to the Fund by Invesco Advisers are appropriate and satisfactory.

The Board reviewed the services that may be provided by the Affiliated Sub-Advisers under the sub-advisory contracts and the credentials and experience of the officers and employees of the Affiliated Sub-Advisers who provide these services. The Board noted the Affiliated Sub-Advisers' expertise with respect to certain asset classes and that the Affiliated Sub-Advisers have offices and personnel that are located in financial centers around the world. As a result, the Board noted that the Affiliated Sub-Advisers can provide research and investment analysis on the markets and economies of various countries in which the Fund may invest, make recommendations regarding securities and assist with security trades. The Board concluded that the sub-advisory contracts may benefit the Fund and its shareholders by permitting Invesco Advisers to use the resources and talents of the Affiliated Sub-Advisers in managing the Fund. The Board concluded that the nature, extent and quality of the services that may be provided by the Affiliated Sub-Advisers are appropriate and satisfactory.

B. Fund Investment Performance

The Board considered Fund investment performance as a relevant factor in considering whether to approve the investment advisory agreement. The Board did not view Fund investment performance as a relevant factor in considering whether to approve the sub-advisory contracts for the Fund, as no Affiliated Sub-Adviser currently manages assets of the Fund.

The Board compared the Fund's investment performance over multiple time periods ending December 31, 2017 to the performance of funds in the Broadridge performance universe and against the Lipper Variable Underlying Funds Alternative Other Funds Index. The Board noted that performance of Series I shares of the Fund was in the third quintile of its performance universe for the one year period and the second quintile for the three and five year periods (the first quintile being the best performing funds and the fifth quintile being the worst performing funds). The Board noted that performance of Series I shares of the Fund was reasonably comparable to the performance of the Index for the one and five year periods and above the performance of the Index for the three year period. The Trustees also reviewed more recent Fund performance and this review did not change their conclusions.

C. Advisory and Sub-Advisory Fees and Fund Expenses

The Board compared the Fund's contractual management fee rate to the contractual management fee rates of funds in the Fund's Broadridge expense group. The Board noted that the contractual management fee rate for Series I shares of the Fund was above the median contractual management fee rate of funds in its expense group. The Board noted that the term "contractual management fee" for funds in the expense group may include both advisory and certain non-portfolio management administrative services fees, but that Broadridge does not provide information on a fund by fund basis as to what is included. The Board also reviewed the methodology used by Broadridge in providing expense group information, which includes using each fund's contractual management fee schedule (including any applicable breakpoints) as reported in the most recent prospectus or statement of additional information for each fund in the expense group. The Board also considered comparative information regarding the Fund's total expense ratio and its various components. The Board noted that there were only five funds (including the Fund) in the expense group.

The Board noted that Invesco Advisers has contractually agreed to waive fees and/or limit expenses of the Fund in an amount necessary to limit total annual operating expenses to a specified percentage of average daily net assets for each class of the Fund.

The Board also considered the fees charged by Invesco Advisers and the Affiliated Sub-Advisers to other similarly managed client accounts. The Board noted that Invesco Advisers or the Affiliated Sub-Advisers may charge lower fees to large institutional clients. Invesco Advisers reviewed with the Board differences in the scope of services it provides to the Invesco Funds relative to certain other types of client accounts, including management of cash flows as a result of redemptions and purchases, necessary infrastructure such as officers, office space, technology, legal and distribution, oversight of service providers, costs and business risks associated with launching new funds and sponsoring and maintaining the product line, preparation of annual registration statement updates and financial information and compliance with federal and state laws and regulations.

The Board also compared the Fund's effective advisory fee rate (the advisory fee rate after advisory fee waivers and before other expense limitations/waivers) to the effective advisory fee rates of other similarly managed third-party mutual funds advised or sub-advised by Invesco Advisers and its affiliates, based on asset balances as of December 31, 2017.

The Board also considered the services that may be provided by the Affiliated Sub-Advisers pursuant to the sub-advisory contracts, as well as the fees payable by Invesco Advisers to the Affiliated Sub-Advisers pursuant to the sub-advisory contracts.

D. Economies of Scale and Breakpoints

The Board considered the extent to which there may be economies of scale in the provision of advisory services to the Fund. The Board also considered that the Fund benefits from economies of scale through contractual breakpoints in the Fund's advisory fee schedule, which generally operate to reduce the Fund's expense ratio as it grows in size. The Board noted that the Fund shares directly in economies of scale through lower fees charged by third party service providers based on the combined size of the Invesco Funds. The Board noted that the Fund may also benefit from economies of scale through initial fee setting, fee waivers and expense reimbursements.

E. Profitability and Financial Resources

The Board reviewed information from Invesco Advisers concerning the costs of the advisory and other services that Invesco Advisers and its affiliates provide to the Fund and the Invesco Funds and the profitability of Invesco Advisers and its affiliates in providing these services. The Board considered the methodology used for calculating profitability and noted the periodic review of such methodology by an independent consultant. The Board noted that Invesco Advisers continues to operate at a net profit from services Invesco Advisers and its affiliates provide to the Invesco Funds and the Fund. The Board did not deem the level of profits realized by Invesco Advisers and its affiliates from providing services to the Fund to be excessive given the nature, extent and quality of the services provided. The Board received information from Invesco Advisers demonstrating that Invesco Advisers and the Affiliated Sub-Advisers are financially sound and have the resources necessary to perform their obligations under the investment advisory agreement and sub-advisory contracts.

F. Collateral Benefits to Invesco Advisers and its Affiliates

The Board considered various other benefits received by Invesco Advisers and its affiliates from the relationship with the Fund, including the fees received for providing administrative, transfer agency and distribution services to the Fund. The Board considered comparative information regarding fees charged for these services, including information provided by Broadridge and other independent sources. The Board considered the performance of Invesco Advisers and its affiliates in providing these services and the organizational structure employed to provide these services. The Board also considered that these services are provided to the Fund pursuant to written contracts that are reviewed and approved on an annual basis by the Board; and that the services are required for the operation of the Fund.
